

World Apology Tour. for Non Christian America
by Douglas R. Johnson
June 16, 2010

I was reading this morning in Joshua 22 and came across the phrase: "Ye have no part in the Lord". This immediately brought to mind President Obama's recent statement that "America is no longer a Christian Nation.

Back in Old Testament times, the enemies were "killed by the sword". But when Jesus came that first Christmas, he changed all that. The new was and is "Peace on Earth" and "Good will toward men".

This is different from the Moslem Nations where fear rules and violence is the method. Heads are cut off and all manner of violence is used to keep even the newspapers in line. Remember the slain cartoonist. Even our media won't publish anything that is anti Moslem.

But the Righteous are different! We are as bold as lions! Just as early Christians willingly went into the arena to absolute death they would NOT back down from their Christian principles. In fact John the Baptist told the king that it was not right for him to take his brother's wife. That standing up for Principles even to the King, cost him his life. But talk about eternal benefits. His death is in all four Gospels and you can find the details yourself.

But go to the bottom line. We are a Christian Nation. Our founding Fathers made sure we had checks and balances. They made sure that power changed peacefully through the ballot box. George Washington rejected the concept of King. Direct election of our President was forbidden. There is no authorization for "Executive Orders" having the force of law. There were no Laws hundreds of pages long.

We are now facing a "Power Grab" by our Moslem loving "False Christian" President who want to be Dictator"

But we Christians need to rise up and take our nation back. But we will do it at the ballot box. It may not be a landslide for Christians this year, but our voice will be heard. Churches need to start preaching on our founding Fathers and our Christian heritage. We Christians need to regain our posture as "Bold as lions but harmless as doves.

We shall overcome. We shall NOT allow any President to usurp authority. Color means nothing. Only action counts!
